

First Family Arc

The first Issue in this 3-Issue Arc introduced the Fantastic Four and their Frightful enemies. This Issue features the Silver Surfer and many of the Heralds of Galactus. And next Issue features the planet-devourer himself as well as some more classic FF villains.

Main Characters that Change Names

The three Main Characters in this Issue have one name at Level 1 and then gain a new name at Level 2 once they've become a Herald of Galactus. (In case it's not clear which Level 1 becomes which Level 2, the card's AKA can help.)

Herald of Galactus

This new Keyword can be found on several characters this Issue. The power stacks – so the more Heralds on your side, the fewer recruit points you'll need to spend on Galactus.

You may be wondering where Galactus is and what he does? The answer is that his Heralds have to check things out before he shows up! (Translation: You'll get to see him next Issue.)

Silver Surfer

Take a Stand allows you to spend any team's special Location that has a globe icon. For example, you could use the Mu Location to generate a globe icon for the Silver Surfer.

Protect the Earth will return the highest cost Supporting Character to its owner's hand, whether that character is on your side or on another player's side.

Roberta

Receptionist prevents Roberta from leaving the front row. This means she can't be moved to the back row during your Formation Step, and she ignores any card effects that would move her out of the front row. However, an effect could move her from one player's front row to another player's front row.

Legacy

Legacy can pay for **Nega-Bands** by spending either a fist icon or a Negative Zone Location. Spending a Negative Zone means turning a Location named Negative Zone face down in your resource row or discarding one from your hand. (It works just like using a regular Location to pay for a super power except you don't actually generate a power symbol.)

Invisible Boy

Remove Cosmic Energy has no duration. Once you've named a super power (including one that is not currently in play if you like) enemy Supporting Characters can't use that power for the rest of the game.

Ardina

Clone of the Silver Surfer refers to the “card title” Silver Surfer. This means the name at the very top of the card must be Silver Surfer. **AKAs** don’t count.

Fantastic Four

The Core Four requires you to have at least one of the listed characters face up on your side. You can then give any character on your side (not just one of the core four) a combination of four total ATK/DEF. For example, you could give a character +0/+4, +1/+3, +2/+2, +3/+1, or +4/+0. **Note:** You can’t use negative numbers here such as +5/-1.
