

## Civil War Arc

This Story Arc features the Civil War in the Marvel Universe between Iron Man's Pro-Registration forces () and Captain America's Anti-Registration forces (). The first Giant-Sized Issue, Civil War Battles, kicked off the Civil War, and this second Issue focuses on more Anti-Registration heroes. The third and final Issue of the Arc will delve deeper into Iron Man's Pro-Registration heroes, and villains!

**AKA**

Some characters, like **Daredevil**, have **AKA** and another name in their text box (in his case it's **AKA Iron Fist**). This represents the fact that some beings in the Marvel Universe have more than one name. In this case, Danny Rand is the current Daredevil during Civil War, but he's better known as Iron Fist!

In game terms, this means that characters with **AKA** count as having both names for both Uniqueness and Powering Up characters. So you can't have Iron Fist and **\*Daredevil\*** on your side at the same time because they're both Danny Rand!

**AKA** is not a power and so it can't be copied or turned off by anything that affects powers.

**Mantles**  
Some characters , like ★Daredevil★, ★Hawkeye★, and ★Vision★, share the same title or “mantle” with other people in the game. In cases like this, the newer character will have one or more stars before and after its name to differentiate it from its predecessor. The card’s full name includes the star treatment so it will count as a different character for the purposes of Uniqueness. Since their names are different, they can’t be used to Power Up each other. But you

## **Cable (Main Character)**

**His Manipulate Matter** Super Power switches the affected character's stats at the moment it is used. Later gains to that character's ATK and DEF work normally (they aren't switched).

This power lasts for the whole turn, even if the character is turned face down, then back face up with something like his own **Telepathic** Super Power.

with new players in mind. Civil War Battles is the perfect place to learn Vs. System® 2PCG® or to teach the game to new players.

## **Storm (Main Character)**

**Her I'm a Mutant** Keyword Power doesn't affect Main Characters at the start of the game (they don't count as "appearing").

## ★Vision★

★Vision★ can reach into a person and disrupt their physical being. This is weird, scary, mean, and powerful! So with his **Physical Disruption** power, anytime he would strike a Supporting Character in a melee combat, whether he's attacking or defending, he can directly wound the enemy character instead. The enemy character still strikes normally.

He will want to do this when he doesn't have enough ATK to stun them by striking, or when he wants to
